

Nat Spirit

Guarantees & Certifications

All NATSPIRIT products undergo regular and rigorous testing. They comply to all food safety standards around the world (FDA, LFGB & REACH) and are free of BPA, PVC, Phthalates, Lead, Cadmium and Mercury.

Audits & Certification:

In order to meet the challenges of the decree on disposable tableware, NATSPIRIT composites are made up partly of bio-sourced materials.

For our Bamboo, the wood is collected as sawdust waste from wood floor factories.

Contrary to some preconceived ideas, our Silicone is not made of plastics but, like glass and ceramics, of silicium in the form of sand and rock.

Our Enamel is a material produced by fusing powdered glass to a metal substrate at high temperatures. Covering steel elements with enamel guarantees health and safety.
